This score is a composite of the four domain scores discussed below.

The bar chart below shows Angola’s total risk scores in 4 domains: (1) Business Interactions with Government, (2) Anti-Bribery Laws and Enforcement, (3) Government and Civil Service Transparency and (4) Capacity for Civil Society Oversight. The four domain scores are weighted and combined and a risk penalty is added for individual domain scores that exceed the overall country risk score. Each country is given a score from 1 to 100 for each domain, and for the total bribery risk. A higher score indicates a higher risk of business bribery.

- 1. Business Interactions with Government:** Angola receives a high score of 80 in this domain, based on a medium degree of government interaction, very high expectation of bribes, and a high regulatory burden.
- 2. Anti-Bribery Laws and Enforcement:** Angola receives a medium score of 44 in this domain, based on a very high quality of anti-bribery laws and a low quality of anti-bribery enforcement.
- 3. Government and Civil Services Transparency:** Angola receives a very high score of 82 in this domain, based on very poor governmental transparency and poor transparency of financial interests.
- 4. Capacity for Civil Society Oversight:** Angola receives a medium score of 61 in this domain, based on a medium degree of media freedom/quality and a low degree of civic participation.
